

Safer, **greener** and economical solid water treatment technology

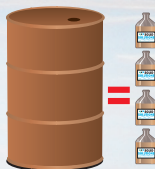

**NO MORE HEAVY DRUMS,
NO MORE LEAKS, and
NO MORE BIG FREIGHT BILLS...**

**SOLID
SOLUTIONS**

GREEN WATER TREATMENT PROGRAMS

Solid Solutions from Jamestown is a complete series of environmentally-responsible corrosion inhibitors, dispersants and microbiocides that can be used in most cooling, boiler, and closed-loop recirculating water systems.

- ✓ Elimination of drum handling and disposal concerns
- ✓ Significantly reduced shipping and handling charges
- ✓ Easier, safer product handling with reduced labor input
- ✓ Fully soluble with plain tap water
- ✓ Reduced energy use and water consumption
- ✓ Operating costs similar to liquid-based programs
- ✓ Reduced storage space requirements
- ✓ Qualification for LEED credits
